INFIN8 / CLARITY BEFORE GROWTH

7-Day Clarity Sprint

One small, specific move a day. Turn a self-check into a week of real movement.

01 Day 1: Name the one thing

02 Day 2: Get the real number

03 Day 3: Find the leak

04 Day 4: Ask the person who'd know first

05 Day 5: Make the call

06 Day 6: Write it down properly

07 Day 7: Set the next check-in

Each day takes one prompt and turns it into one action, not a growing to-do list. Do them in order, ideally on consecutive days. If you haven't done the Owner Self-Check, the sprint still works. Start with Day 1.

01 DAY 1: Name the one thing

Of everything competing for your attention, which single issue would change the most if you fixed it first?

- [ ] **Today's move:** Write that one thing down in a single sentence, somewhere you'll see it first thing tomorrow.

02 DAY 2: Get the real number

What's the figure behind that issue that you've been estimating instead of actually checking?

- [ ] **Today's move:** Go find the real number today. Not the rough version in your head, the actual one.

03 DAY 3: Find the leak

Where is time, cash or attention quietly draining away without you ever deciding to spend it there?

- [ ] **Today's move:** Name the leak in one line. You're not fixing it yet, just naming it clearly.

04 DAY 4: Ask the person who'd know first

Who on your team, or which advisor, would have noticed this before you did?

- [ ] **Today's move:** Send them one message today asking what they're seeing.

05 DAY 5: Make the call

What's the decision you've been putting off because it felt too big to make on an ordinary Tuesday?

- [ ] **Today's move:** Make it. Even a provisional decision beats another week of no decision at all.

06 DAY 6: Write it down properly

Now that Day 5 is decided, who actually owns it, and by when does it need to happen?

- [ ] **Today's move:** Turn yesterday's decision into one line with a name and a date attached to it.

07 DAY 7: Set the next check-in

What would tell you, three weeks from now, whether this week actually worked?

- [ ] **Today's move:** Book one 20-minute slot in the next three weeks to find out.

AFTER DAY 7

What a week like this actually does

None of these seven moves are big on their own. Named an issue, checked a number, asked a question, made a call. Put together, they're the difference between a business that reacts and one that's actually being run.

IF THE WEEK SURFACED MORE THAN EXPECTED
